

Project Design Phase-I

Solution Architecture

Team ID	PNT2022TMID29934
Project Name	AI-POWERED NUTITION ANALYSER FOR FITNESS ENTHUSIAST.

Solution architecture:

Solution architecture is a complex process-with many sub-process-that bridges the gap between business problems and technology solutions.Its goals are to:

- Food remainder by multiple ways like audio note of what they have to eat at that time.
- To project stack holders we have given set of quiz to analyse the health and has an alternative food to take at a time.
- Subscriptions are available after certain time,premium available to direct consultation with doctors.
- When enthusiasts travel somewhere, software provided an option of searching the availability food that they have to take in near by restaurant.
